

## Networking For Future Launches NetActive Co-Managed Support Service

WASHINGTON, June 30, 2020 – Networking For Future, Inc. (NFF), a performance-focused IT business solutions provider, today announced the launch of NetActive Co-Managed Support as the latest offering in its [NetActive Portfolio](#).

NetActive provides clients access to highly skilled technology experts to augment their in-house resources. NetActive Co-Managed Support integrates this information technology (IT) support with network and system performance management. Co-Managed Support is designed to help clients that are looking for assistance with the design, implementation, and maintenance of their IT infrastructure and systems.

Co-Managed Support is a collaborative approach with a client's internal IT team to share IT responsibilities based on skillsets, time requirements, project demands, and staff availability. Clients benefit by gaining continuous access to technical experience, expertise, auditing, and reporting.

Co-Managed Support offers:

- Collaborative system architecture, engineering, and strategic planning
- IT engineering expertise with institutional knowledge of your staff, infrastructure, and systems
- Agility when IT resource needs rapidly change or evolve
- Bi-annual technical reviews to align IT resource utilization with network and systems capacity
- Comprehensive reach back technical support from the NFF engineering bench
- Proactive real-time trouble identification and issue resolution from certified engineers
- Continuous network and system performance analytics that provide actionable insight
- Network hardware and software mapping, governance, and compliance risk assessment

“The network is the most critical element in any organization’s digital transformation. We constantly listen to our clients and understand the challenges they face transforming networks to meet today’s demands,” stated Glen Carter, vice president of technology services at NFF. “By launching Co-Managed Support within our NetActive portfolio, we’re improving IT network and system insight. The result is a better and more comprehensive methodology to support our clients.”

“We’re especially excited to provide our clients through an enhanced understanding of their network and systems performance,” commented Majid Saadat, president at NFF.

“NetActive Co-Managed Support gives clients the ability to define their unique network infrastructure support and services requirements.”

### **About Networking For Future, Inc.**
