

Networking For Future Joins Tech Together DC Partnership First Pledge Class

WASHINGTON, November 9, 2020 – Networking For Future, Inc. (NFF), a performance focused IT business solutions provider, today announced that NFF joined the [Tech Together DC Partnership](#) First Pledge Class. Tech Together DC is a values-led partnership between the Government of the District of Columbia (DC), non-profit community, academia, and industry working together to bridge the digital divide through Internet and Internet-enabled device access, technology awareness training, and technical education, upskill, and career opportunities.

The Tech Together DC Pledge is a shared set of goals, benefits and principles that sets out action areas, commitments, resources and ways partners can support Bridging the Digital Divide.

“NFF has many reasons to feel excited about the future, and we believe in supporting our Washington, DC community by helping bridge the digital divide,” said Hess Fatemi, chief executive officer at NFF. “Through participation in Tech Together DC we’re working with a powerful team of partners to create opportunities for everyone by reducing the barriers of technology adoption and Internet access.”

“NFF works closely with the DC Public Schools, libraries, and the University of DC to enable enhanced teaching and learning through our network and security engineering services”, commented Chris Peabody, chief strategy officer at NFF. “NFF is committed to using our resources to make it easier for people to understand and use technology and help close the digital divide in Washington, DC.”

About Networking For Future, Inc.

Networking For Future, Inc. (NFF) is a Washington, DC based company offering a performance-focused approach to delivering transformational IT business solutions.
