

## **Networking For Future Expands Education Technology Services Names Mike Rogers Innovative Solutions Advisor**

WASHINGTON, February 2, 2022 — Networking For Future, Inc. (NFF), a performance focused IT business solutions provider, today announced that education industry veteran Mike Rogers has been appointed Innovative Solutions Advisor, Education to expand its education technology service by launching strategic consulting services for executives in the K-20 market.

With nearly a decade of technology leadership in the education market, Mike Rogers' addition to the leadership team enables NFF to expand its solution portfolio beyond an institution's network and security platforms. The education technology practice offers immediate value to clients by providing virtual Chief Information Officer (vCIO) services, business case and investment justification support, and comprehensive security and digital transformation roadmap development.

Chief Strategy Officer of NFF, Chris Peabody said, "Based on strong demand and our twenty-five years supporting teaching and learning clients, building an education technology practice was a logical next step. We've known Mike Rogers as a client and as a respected technology leader in education for many years. With his extensive background and expertise supporting education institutions, Mike is the right choice to lead this new technology practice."

Before joining NFF, Mike was the Executive Director of Information Technology at the University of the District of Columbia (UDC) for nine years. Previous to his leadership role at UDC, Mike held engineering leadership roles at the Washington Research Library Consortium and the Office of Naval Research and was a Solutions Architect with Dell/EMC. He is a frequent speaker at education and technology conferences.
