

NFF Opens Office in West Virginia to Support Government, Education, and Broadband Initiatives

Networking For Future (NFF) increases their investment and support for West Virginia

WASHINGTON, May 18, 2022 – Networking For Future (NFF), a performance focused information technology (IT) solutions provider, is excited to announce today their continued Mid-Atlantic region expansion to include a new office in Charleston, West Virginia. NFF is currently working with the West Virginia Office of Technology on a statewide IT initiative. NFF will leverage their state-of-the-art broadband technology and solutions as the state increases its focus on bridging the West Virginia digital divide, improving education, and providing enhanced services for residents and businesses.

NFF will provide their IT solutions expertise and knowledge to clients throughout West Virginia. NFF delivers infrastructure architecture, security, cloud solutions, hybrid learning and work solutions, professional support services, and hardware and software sales, all backed by their 24x7x365 network operations center.

“For over 25 years, NFF has provided innovative, mission critical IT solutions to businesses, governments, and education institutions across the Mid-Atlantic region,” stated Chris Peabody, chief strategy officer at NFF. “Our deep engineering and security expertise, coupled with our innovative broadband solutions portfolio, aligns perfectly with the requirements, needs, and challenges of organizations across the State of West Virginia. It was an easy decision to make West Virginia our latest client-focused expansion and investment.”

About Networking For Future, Inc.
