

## **NFF Expands Education Practice With New Jersey Institute of Technology IT Solutions Contract**

WASHINGTON, June 8, 2022 – Networking For Future (NFF), a performance focused information technology (IT) solutions provider, is pleased to announce today their continual education practice expansion. NFF is currently working with the New Jersey Institute of Technology on IT consulting initiatives for improving the campus-wide network architecture and design to enhance the educational experience and provide increased services for students, faculty and staff. In addition, NFF will deliver health state, vulnerabilities, and recommended improvements for NJIT’s Microsoft Office 365, Active Directory Domain Services (ADDS), Microsoft Azure Active Directory and Hybrid Identity, and Exchange Online.

One of only 35 polytechnic universities in the United States, New Jersey Institute of Technology (NJIT) is a top-tier research university that catalyzes economic growth and prepares students to become leaders in the technology-dependent economy of the 21st century. NJIT is ranked among the Top 50 Public Universities. NJIT also appeared in several academic program lists, including the top 100 for Best Undergraduate Engineering Programs and Best Undergraduate Computer Science Programs.

The NFF education practice, through its professional services team, delivers infrastructure architecture, security, cloud solutions, hybrid learning and work solutions, professional support services, and hardware and software sales, all backed by their 24x7x365 network operations center.

The NFF education practice has experienced tremendous development over the last years. This Mid-Atlantic region expansion is another exciting step for us on our growth path,” commented Mike Rogers, education practice lead at NFF. “We look forward to bringing our innovative, mission critical IT solutions to education institutions in New Jersey, where we see a major opportunity to help clients realize the positive organizational outcomes that come through NFF solutions and services.”

### **About Networking For Future, Inc.**

Networking For Future, Inc. (NFF) is a Washington, DC-based company offering a performance-focused approach to delivering transformational IT business solutions.
