# Enhance Student Engagement with NFF Campus Network and Wireless Solutions
Education is changing. From rapid shifts in distance and hybrid learning to an evolving and transforming job market and skills landscape. From new models of teaching and student engagement to the evolving role of the campus and classroom. From barriers to access and a growing digital divide to resource constraints, and mounting security threats, today is a time of unparalleled digital transformation.
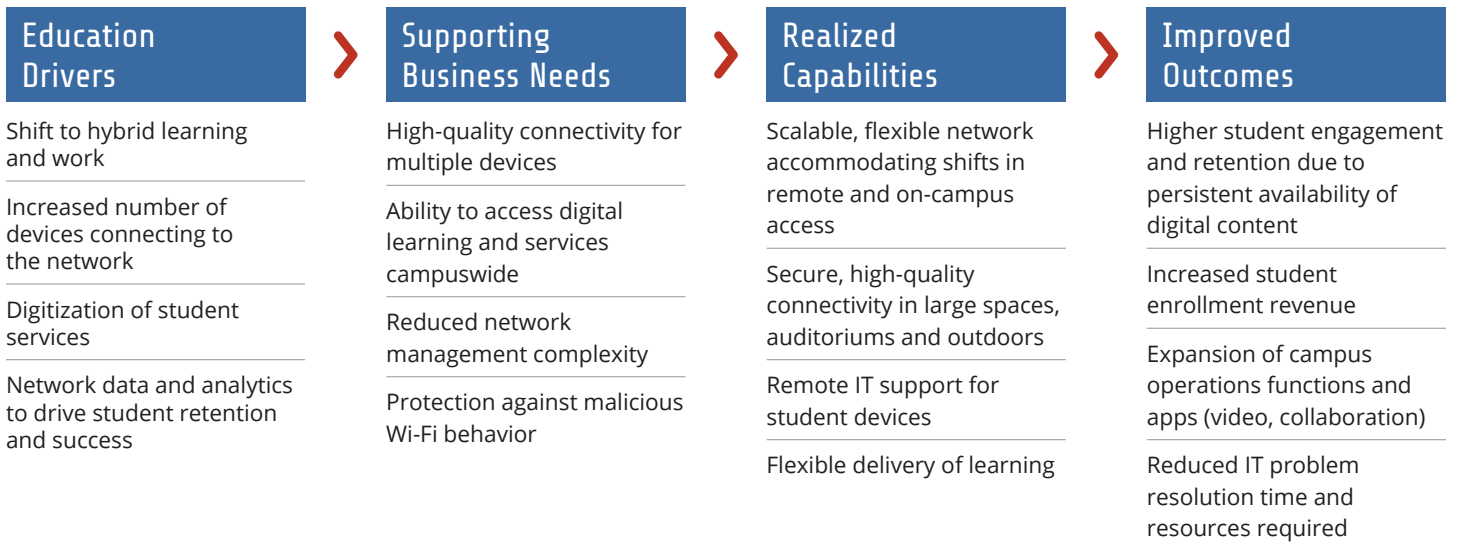

95%
Of network changes are performed manually

75%
Of operating expense is on changes and troubleshooting

70%
Of policy violations are due to human error

The future of education is based on secure, robust and reliable hybrid campus network and wireless solutions that are simple to manage, work together seamlessly, and are backed by world-class support. **That's where Networking For Future (NFF) comes in. We are all in for education.**

Education Drivers	Supporting Business Needs	Realized Capabilities	Improved Outcomes
Shift to hybrid learning and work	High-quality connectivity for multiple devices	Scalable, flexible network accommodating shifts in remote and on-campus access	Higher student engagement and retention due to persistent availability of digital content
Increased number of devices connecting to the network	Ability to access digital learning and services campuswide	Secure, high-quality connectivity in large spaces, auditoriums and outdoors	Increased student enrollment revenue
Digitization of student services	Reduced network management complexity	Remote IT support for student devices	Expansion of campus operations functions and apps (video, collaboration)
Network data and analytics to drive student retention and success	Protection against malicious Wi-Fi behavior	Flexible delivery of learning	Reduced IT problem resolution time and resources required

Since 1996, NFF has delivered architecture, design, professional services, and hardware and software sales for education. As the world continues to change, we're here to help, and we're "all in" when it comes to education. NFF is and will continue to be an education company and your trusted technology partner.

We are passionate about helping schools and universities find innovative ways to support their students, faculty, and staff by developing and delivering advanced campus network and wireless solutions. Let NFF ease the burden of network management on your campus so you can focus on helping your students and faculty succeed.
