

Networking For Future Cyber Security Practice Expands With Rapid7 Partnership

WASHINGTON, September 13th, 2022 — Networking For Future, Inc. (NFF), a performance focused IT solutions provider, today announced an expansion of their cyber security practice through a new partnership with Rapid7, a world class Managed Endpoint Detection and Response (EDR) and Advanced Persistent Threat (APT) Protection partner used by more than 10,000 clients and service providers.

Rapid7's Insight Platform will augment NFF's NetActive Co-Managed support (CMS) and Network Operations Center services to provide NFF and our clients the tools and clarity needed to assess their attack surface, detect suspicious behavior, and respond and remediate quickly with intelligent automation. The combination creates a best-in-class solution that combines continuous network and system monitoring with unparalleled attacker insights and security expertise, all in one unified solution.

Vice President for Technical Solutions, Glen Carter said, " The NFF/Rapid7 solution provides one team, one platform and an unparalleled 24x7x365 comprehensive security portfolio focused on securing clients network, cloud and endpoint data, and reducing false positive occurrences. Rapid7's services combined with NFF's NetActive Co-Managed support (CMS) services <https://www.nffinc.com/services/professional-services/> align perfectly to enhance and ensure the security, continuity and stability of our client's mission critical business needs."
