

**WASHINGTON, February 2nd, 2023** — Networking For Future, Inc. (NFF), a performance-focused IT solutions provider, today announced that they have joined the Washington DC Capital Area Chapter of the Society For Information Management (SIMCAC) as an Enterprise Level Member.

SIM is senior technology executives, prominent academicians, and technology thought leaders, built on a foundation of local chapters that come together to share and enhance their rich intellectual capital.

<https://national.simnet.org/home>

Chartered by the National Society for Information Management (SIM) organization in 1979, the SIM Capital Area Chapter (SIMCAC) has been the DC area's most prestigious professional association for CIOs and other senior IT leaders for over four decades. SIMCAC is a professional community for CIOs and other senior IT leaders in the Washington, DC area, and welcomes senior IT Leaders, including direct-reports to the senior IT leader of an organizations, as well as senior academics and consultants in the senior IT leadership space. SIMCAC is a non-profit, volunteer run organization, that supports many STEM charities with donations, time and expertise. <https://chapter.simnet.org/capitalarea/home>

Since 1996, NFF has supported many capital area public sector, education and enterprise clients with IT security and infrastructure products, software, and services. The NFF track record of delivering technology driven, quality solutions and services, in combination with our dedication and commitment to our clients, is illustrated by strong client relationships and consistent business growth.

Alan Edwards, Chief Security Officer of NFF and longtime SIMCAC member shared "NFF has executives that have been members of SIMCAC for years, joining as a corporate member was a logical next step and our way of growing our relationship with SIMCAC, our clients, and supporting the community."
