INFORMATION TECHNOLOGY WORKFORCE AUGMENTATION

NFF

Since 1996, NFF has supported clients across the mid-Atlantic with IT staffing, professional and consulting services, and mission critical information technology (IT) business solutions. Since inception, NFF has successfully managed performance-based task order contracts with total value of more than $120 Million. We have delivered large, complex mission-critical IT projects and offer our clients the capabilities of a mature, low-risk contractor to manage today's workload and advance innovative solutions and processes.

Why NFF?

- At its core, NFF is a technology consulting company holding strong industry partnerships, and relevant certifications both at the company and individual levels.

- Decades of experience in implementing mission critical projects utilizing our bench professionals, paired with the same number of years staffing government, education, and business technology initiatives, uniquely qualifies us to provide the technical resources required to deploy, manage, and enhance complex IT programs for our clients.

- The NFF team applies an agile approach to enhance candidate search results and ensure staff performance. Our team uses a four-step interview process to select the best talent for our clients.

1 Behavioral evaluation **2** Client match **3** Technical evaluation **4** Talent selection confirmation

Our comprehensive approach ensures that we consistently provide top-tier candidates who exceed our clients' expectations. Trust NFF to be your partner in staffing solutions and experience the difference that our expertise and dedication can make.

NFF STAFFING PRACTICE FOCUS AND OVERVIEW

NFF Core Focus

Using an agile approach including a four-step interview process to enhance the search results, recruiters quickly and effectively find the most qualified people.

> Infrastructure Architecture and Operational Support
> Systems Engineering and Administration
> Application – DevOps Support
> Cyber Security Architecture and Operational Support
> Project and Program Management

Full-Time and Part-Time / Flexible Technical Solutions

NFF provides a comprehensive suite of services, ranging from short-term project-based engagements to long-term strategic staffing solutions. Each offering is tailored to meet distinct business needs, delivering flexibility, cost-effectiveness, and adaptability in managing human capital requirements.

> **Full Time:**

Provides dedicated IT professionals who work full-time within the client's organization for an extended period. Suitable for long-term projects or ongoing needs.

> **Part-Time:**

Ideal for organizations with fluctuating workloads, requirements and resources. IT expertise on a flexible basis allows clients to scale resources up or down based on requirements.
